# About Us

---

Our vision has become a clear goal, to be part of a key ecosystem of financial, primarily fintech, European centers and to launch a “Building innovation culture”.

We have created the basic form of a functional platform. However, we still have a lot of work to do. We are currently trying to name concrete steps to make this goal a reality. We are gradually consolidating Slovakia as a country with innovation potential with a partially functional ecosystem

---

# Pillars of success

---

Community, establishment of the association FINAS (Innovation Culture)

Slovlink's innovative infrastructure, from which the whole country and the region prosper

Location as an unused gift - marketing of the country of Slovakia as a center focused on financial innovations in the CEE region

Starting the "Fee Business"

# Why us?

---

## Vision, strategy, networking, innovation, goal, trust

Vision, strategy, networking, innovation, goal, trust. I have 22 years of experience and a number of successful projects. 5 years ago, we started with a completely new topic, which began a fundamental change in the “Fintech” financial world. We see the establishment of the Club and NGO FINAS entity, which will be able to launch new projects on this topic, primarily for its members, as the first peak of the conclusion of our planned cycle.

**Davy Čajko**

## Quality fin-legislative climate

Quality fin-legislative climate. As a finance and banking expert, I am pleased to have the opportunity to discuss with professionals and contribute with my more than 10 years of banking experience gained as a chief legal officer, Head of SME financing, advisor to CEO or member of the Supervisory Board. To the years of work in banking, I also add experience from the external provision of legal services to banks, as a member of the banking and financing team at the law firm Prosman & Pavlovič.

**Pavol Čverha**

## Technology expert

Technology expert. Within FINAS, we want to achieve that more companies are established in Slovakia with the ambition to apply in the Fintech & Insurtech sectors, and that they have suitable conditions and an environment for their continuous growth.
